1. PRODUCT AND COMPANY IDENTIFICATION

Product Identity: BH BT-25XL, BH PW 100/40, BH PW 100/60

Intended Use: Construction Waterproofing Material

HMIS Hazard Ratings

- Health: 1*
- Fire: 1
- Reactivity: 0

Manufacturer: Protecto Wrap Company
2255 South Delaware
Denver, CO 80223

Telephone: (303) 777-3001
Fax: (303) 777-9273
Internet: www.protectowrap.com

Emergency Phone: CHEMTREC: (800) 424-9300

MSDS Date of Preparation: 02/16/07
Prepared by: Denese A. Deeds, CIH Industrial Health & Safety Consultants, Inc. Woodbridge, CT 203-929-3473

3. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW

This product is a black, opaque, tacky solid with no odor. Product is not flammable but will burn under fire conditions. May cause mild eye and skin irritation. Contact with heated product may cause thermal burns. Inhalation of vapors from heated product may cause irritation of the nose, throat and respiratory system. This product contains crystalline silica in the form of quartz. Prolonged overexposure to respirable crystalline silica may cause lung disease (silicosis) and increase the risk of lung cancer.
This product contains asphalt which may cause cancer based on animal data. Risk of cancer depends on duration and level of exposure.

4. FIRST AID MEASURES

**EYE:** First check victim for contact lenses and remove if present. Flush victim's eyes with large quantities of water, holding the eyelids apart. Get medical attention if irritation persists.  
**SKIN:** Remove contaminated clothing. Wash skin thoroughly with soap and water. If rash or irritation develops, get medical attention.  
**INGESTION:** Ingestion is an unlikely route of exposure for this product. If large amount is swallowed, get medical attention.  
**INHALATION:** If fumes from heated product are inhaled, remove victim to fresh air. If breathing is difficult have qualified personnel administer oxygen. If breathing has stopped, administer artificial respiration. Get immediate medical attention.

5. FIRE FIGHTING MEASURES

**FLASH POINT:** >320° F  
**FLAMMABLE LIMITS:** LEL: Not applicable  UEL: Not applicable  
**AUTOIGNITION TEMPERATURE:** Not determined  
**EXTINGUISHING MEDIA:** Use foam or dry chemical to extinguish fire. Use fog nozzles if water is used. Water streams may cause violent eruptions and spread the burning of asphalt. Use water to cool fire exposed containers and structures.  
**UNUSUAL FIRE OR EXPLOSION HAZARDS:** Product will burn if exposed to elevated temperatures or fire. Hot asphalt may ignite flammable mixtures on contact. Toxic vapors including hydrogen sulfide may be released upon combustion. Hydrogen sulfide vapors are heavier than air, may accumulate in low areas and flashback if ignited.  
**SPECIAL FIRE-FIGHTING INSTRUCTIONS:** Firefighters should wear positive pressure self-contained breathing apparatus and full protective clothing. Do not allow run-off from fire fighting to enter drains or water courses.  
**HAZARDOUS COMBUSTION PRODUCTS:** Carbon monoxide, sulfur oxides, hydrogen sulfide, acrolein, aldehydes, ketones and unidentified organic compounds may be formed on combustion.  
**EXPLOSION DATA (sensitivity to mechanical impact or static discharge):** None known.

6. ACCIDENTAL RELEASE MEASURES

Pick up and place into an appropriate container for disposal. If product becomes molten, allow product to cool before picking or scraping up.

7. HANDLING AND STORAGE

**HANDLING:** Avoid contact with the eyes and skin. Avoid breathing vapors, mists or fumes. If product is heated, use with adequate ventilation. Wash with soap and water after use.  
Do not cut, drill, grind or weld on or near containers, even empty containers. Empty containers retain product residues can be hazardous. Follow all MSDS precautions when handling empty containers.  
**STORAGE:** Store in a cool, well ventilated area away from excessive heat and sources of ignition. Do not enter confined storage areas without proper precautions including atmospheric testing.
8. EXPOSURE CONTROLS/PERSONAL PROTECTION

EXPOSURE GUIDELINES: Refer to Section 2.
ENGINEERING CONTROLS: General ventilation should be adequate for normal use. For operations where the product is heated and TLV may be exceeded, mechanical ventilation such as local exhaust may be needed to maintain exposure levels below applicable limits.
RESPIRATORY PROTECTION: None needed under ambient conditions. For situations where the product is heated, hydrogen sulfide may be released. In such conditions, a NIOSH approved positive pressure self-contained breathing apparatus is recommended. Gas masks or other air purifying respirators are not recommended for hydrogen sulfide due to its poor odor warning properties. Equipment selection depends on containment type and concentration, select in accordance with 29 CFR 1910.134 and good industrial hygiene practice. For firefighting, use self-contained breathing apparatus.
SKIN PROTECTION: If heated, wear leather gloves to prevent thermal burns.
EYE PROTECTION: Safety glasses or goggles should be worn where contact is possible.
OTHER: Wear long sleeved shirt and long pants to avoid skin contact. Wash thoroughly after handling.

9. PHYSICAL AND CHEMICAL PROPERTIES

APPEARANCE AND ODOR: Opaque black, tacky solid with no odor.
PHYSICAL STATE: Solid
BOILING POINT: Not applicable
VAPOR PRESSURE: Not applicable
VAPOR DENSITY: Not applicable
EVAPORATION RATE: Not applicable
SOLUBILITY IN WATER: Insoluble
BULK DENSITY: 10.60 pounds/gallon
SPECIFIC GRAVITY: 1.27
pH: NA
MELTING POINT: 220°F (104°C) (Softening Point)
OCTANOL/WATER COEFFICIENT: No data available
VOC CONTENT: 0%

10. STABILITY AND REACTIVITY

STABILITY: Stable under normal storage and handling conditions.
INCOMPATIBILITY: Strong oxidizers. Avoid water if product is molten.
HAZARDOUS DECOMPOSITION PRODUCTS: Carbon monoxide, sulfur oxides, hydrogen sulfide, acrolein, aldehydes, ketones and unidentified organic compounds.
HAZARDOUS POLYMERIZATION: Will not occur.

11. TOXICOLOGICAL INFORMATION

HEALTH HAZARDS:
INGESTION: No adverse effects are expected from normal use. Swallowing may cause gastrointestinal irritation, nausea, vomiting and diarrhea.
**INHALATION:** No adverse effects expected at ambient temperatures. Vapors released from heating product may cause respiratory irritation. At elevated temperatures hydrogen sulfide may be released. The release of hydrogen sulfide gas in various concentrations may cause irritation of the eyes and respiratory tract, headache, dizziness, nausea and drowsiness. Exposure to high concentrations of hydrogen sulfide can cause respiratory arrest and death.

**EYE:** May cause irritation with redness, tearing and blurred vision. Contact with product at elevated temperatures may cause thermal burns.

**SKIN:** May cause irritation, defatting of the skin and dermatitis. Contact with product at elevated temperatures may cause thermal burns.

**SENSITIZATION:** This product is not expected to cause sensitization.

**CHRONIC/CARCINOGENICITY:** No adverse effects expected at ambient temperatures. Prolonged inhalation of asphalt smoke has been shown to cause bronchitis, pneumonitis and abscess formation in laboratory animals. Asphalt fume condensates have been shown to cause tumorigenic responses when repeatedly applied to the skin of laboratory animals. This product contains crystalline silica. Repeated inhalation of large amounts of silica dust over an extended period of time may result in a progressive, disabling disease, silicosis. However, the crystalline silica in this product is bound in a polymer matrix and dust exposure would not be expected. The International Agency for Research on Cancer has determined that respirable crystalline silica is carcinogenic to humans (Group 1) and asphalt (petroleum, bitumen) is “Possibly Carcinogenic to Humans”, Group 2B. The National Toxicology Program classifies respirable crystalline silica as "known to be a human carcinogen". Carbon black is listed by IARC as a 2B carcinogen.

**MUTAGENICITY:** No adverse effects from available data.

**SYNERGISTIC PRODUCTS:** None specifically known.

**MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE:** Employees with pre-existing skin and respiratory disorders may be at increased risk from exposure.

**ACUTE TOXICITY VALUES:**
- Asphalt: Oral Rat LD50 - >5.0 g/kg
- Skin Rabbit LD50 - > 2.0 g/kg
- Skin Rabbit LD50 – 14100 uL/kg
- Calcium Carbonate: No acute toxicity data available

**12. ECOLOGICAL INFORMATION**

No ecotoxicity data is available for this product at this time.

**13. DISPOSAL CONSIDERATIONS**

Dispose in accordance with local, state and federal environmental regulations.

**14. TRANSPORT INFORMATION**

**DOT HAZARDOUS MATERIALS DESCRIPTION:**
- Proper Shipping Name: Not Regulated
- UN Number: None
- Hazard Class/Packing Group: None
- Labels Required: None
15. REGULATORY INFORMATION

CERCLA/SUPERFUND: This product is not subject to CERCLA reporting requirements.
SARA HAZARD CATEGORY (311/312): Acute Health, Chronic Health
SARA 313 INFORMATION: This product contains the following chemicals subject to Annual Release Reporting Requirements Under SARA Title III, Section 313 (40 CFR 372): None
EPA TSCA INVENTORY: All of the ingredients in this product are listed on the EPA TSCA Inventory.

CALIFORNIA PROPOSITION 65
This product contains the following chemicals known to the State of California to cause cancer:
Crystalline Silica (Quartz) 0-3% This product may also contain trace amounts of other chemicals that are known to the State of California to cause cancer, birth defects or other reproductive harm.

CANADA:
This product has been classified under the CPR and this MSDS discloses information elements required by the CPR.
CANADIAN WHMIS CLASSIFICATION: Not a controlled product (manufactured article).

16. OTHER INFORMATION

NFPA RATING: Health = 1 Fire = 1 Reactivity = 0
HMIS RATING: Health = 1* Fire = 1 Reactivity = 0

REVISION SUMMARY: New Product

NOTICE
The supplier disclaims all expressed or implied warranties of merchantability or fitness for a specific use, with respect to the product or the information provided herein, except for conformation to contracted specifications.
